All,

We have a final signed agreement with Central Sands Dairy. In lieu of a contested case hearing to resolve CSD's challenge to certain wells in the 2016 permit modification, the dairy agrees to provide a crop history report, an investigation and reporting of N removal by alfalfa, and to develop and execute a plan to identify the source of the ammonia exceedances near the waste storage facility. DNR's next permit action will be informed by the results of these submissions.

Thanks for all your work on this. Let me know if you have any questions.

We are committed to service excellence.
